

SARS Covid-19 - The Who, How, What, When, Where and Why

Something you did brought you to the point of reading this article. Maybe it was the lack of logic you saw in the government responses to the 'Covid Pandemic' and their imposed rules and regulations - but whatever it was, you're here. The important thing is that the willingness to look and the courage to face what is really there rather than swallow what you are told, even if by "authorities", are uncommon abilities and if you have those I respect and admire you for it.

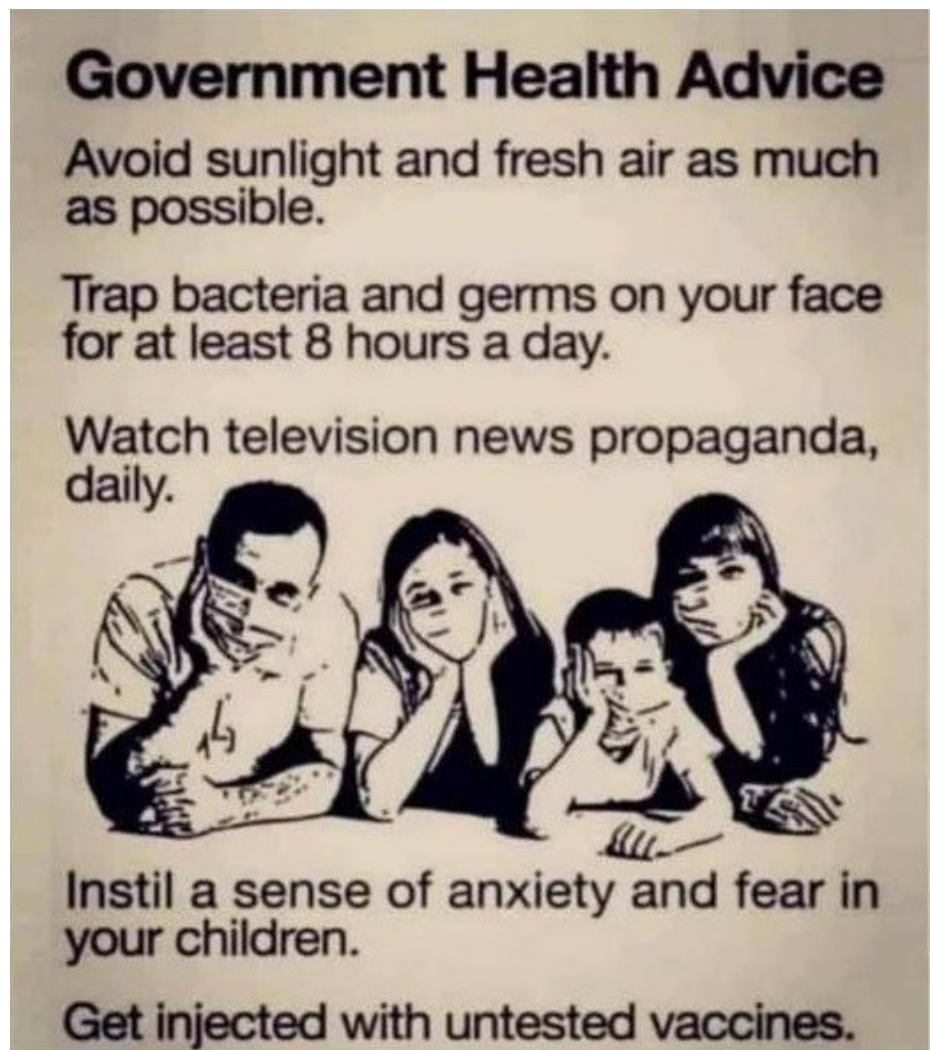

Many of us today are sensing that something is 'not quite right' but we can't quite put our finger on it. When you look critically at the government health advice, distilled to a meme, it does not make any sense at all. It defies all we know about staying well therefore it bothers us.

Not everything we are told is true. You can probably recall something you were told you learned later was a lie. Today, more than ever, with so much data available, often contradictory, it poses problems. Reminds me of the clear thinking question on an English exam I heard of many years back, What happens when an irresistible object meets an immovable force?"

The three possible answers (the force moves the object, the object deflects the force or some combination of those) are impossible according to the data given - the force is irresistible and the object immovable.

The solution is that one or both statements are incorrect, a lie. In fact both statements are wrong as there is no such thing as an absolute in the physical universe.

In the face of data that our senses reject (two bits of contradictory data or something illogical) I have had people tell me their solution is to cut back, reduce awareness so the things that are "not quite right" do not bother them any more. In fact the solution is not *less* but *more* knowledge

and greater awareness. Only that way you can spot the truth and apply your intelligence to fixing what caused the problem.

So when confronted with things that assault my sensibilities I tend to dive into "data collection" mode, looking for a pattern or rationale, something that would explain what does not make sense. You may have heard the expression, "Follow the money!" or "Who benefits?" They are often fruitful. More on that later.

People who have believed a lie have fragile certainty. They reject data contrary to the lie because they're afraid of the uncertainty which may follow if the lie is exposed.

When confronted with the truth the automatic reaction of the vast majority of people who have believed lies is to reject the truth, dispute it, to try to find flaws with it or discredit the messenger. The mental anguish that ensues from trying to reconcile contrary data is called "cognitive dissonance". Being unwilling to reevaluate what one believes to be true leads to fixed, uninspected viewpoints that do not aid but hinder survival. You cannot obtain optimum results from applying incorrect data to resolve problems so it is important, in this case vitally so, to resolve the contrary data on the subject of Covid.

Another problem is thinking that you know all about something. It bars your path to learning in that area. The antidote to that is humility. This quality is essential in reviewing an area or a body of data. A person who wishes to survive optimally must be prepared to look at what is there rather than accept what they're told, even if by "the best authorities". (After all, "the best authorities" once endorsed blood letting, slavery, cocaine in Coca Cola, smoking tobacco, Thalidomide, spraying DDT on children and crops etc.) Big breakthroughs occur when we are prepared to be humble, suspend our belief in what we think we know to be true and look newly, honestly at true data.

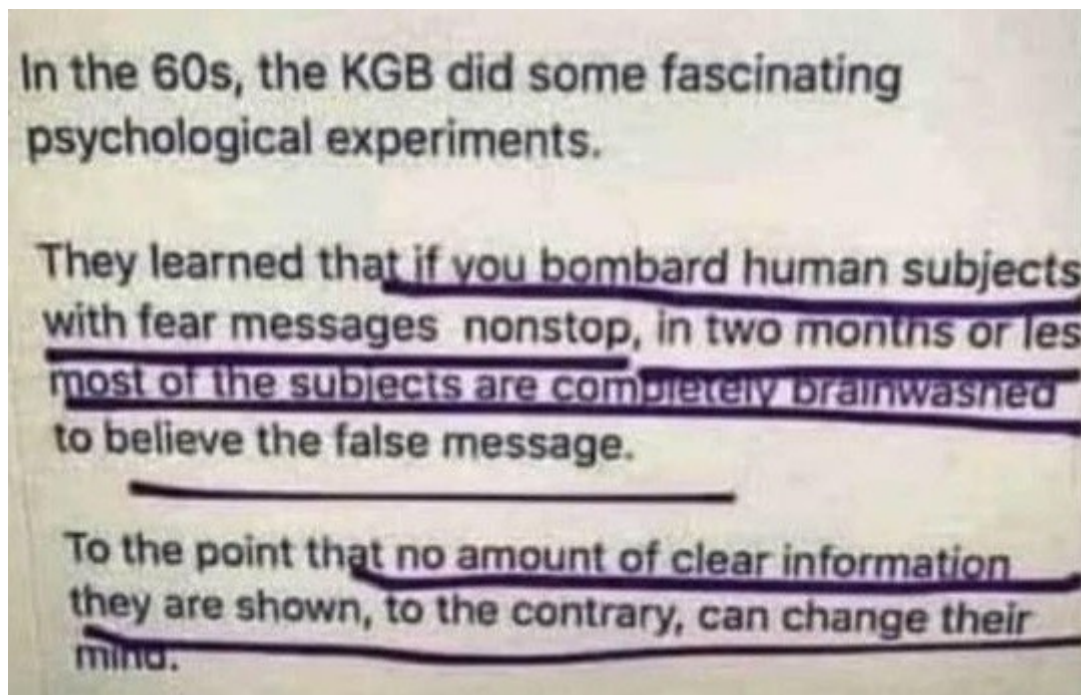

This can be a major problem in an area where someone is deliberately doing wrong as I have heard and observed that man's worst ability is to confront evil. The person who cannot confront evil will not see what is there or justify it, find some excuse why it was accidental rather than malicious.

OK, let's list the commonly held beliefs about the novel coronavirus that Dr Robert Malone describes as "the juggernaut... ..of consensus set of truths". <https://www.bitchute.com/video/V6WsW4VTJ82X/>

- What has been called SARS Covid-19 is a natural virus.
- It escaped from a wet market or lab in Wuhan.
- It is new, highly infectious and deadly, justifying a pandemic label.
- It warrants extreme measures to contain and eradicate it.
- The government are and will do all they can to keep you healthy.
- The government are acting on the best scientific/medical advice.
- Masks inhibit the spread of viruses from person to person.
- Social distancing limits the spread of viruses between people.
- Lockdowns prevent viral transmission.
- Get tested! The PCR test can determine if you are infected or not.
- There are no cures to prevent people dying from Covid-19.

- There is nothing we can do to reduce our risk of infection.
- It is possible and desirable to eradicate it.
- Our only hope of doing so is with herd immunity from a vaccine.
- A large percentage of people vaccinated will give us herd immunity.
- The various vaccines presently available are safe and effective.
- The vaccines reduce your chance of getting Covid.
- The vaccines stop you from transmitting Covid to others.
- The vaccine will reduce the severity of symptoms if you get Covid.
- The unvaccinated are responsible for the mutating strains of Covid.
- People who do not wear masks, do not social distance or get the shot endanger others.

OK, that's a pretty exhaustive list of what the media has been telling us for the last 18 months. If we are going to properly evaluate data to find truth for each point I would ask you to put all of those presently held beliefs about the novel coronavirus into the "to be investigated" basket and start with a blank slate. To help you accomplish that, here's a thought that may help you overcome any resistance you feel to doing so:

Given that those who watch TV have been bombarded, not for 2 but for 18 months, it will take some serious effort to sideline all those fear messages to accept any true datum contrary to those fear messages.

Before we continue, a piece or two of wisdom to set the stage. I have heard that the most important thing you can do for a person is to increase their certainty and I also know we survive best with truth. Lies lead to wrong decisions and poor choices which can be, and often are, deadly!

As an example, you've probably heard the saying, "Give a man a fish and you feed him for a day. Teach a man to fish and you feed him for a lifetime." This is because what you taught him was true and by him doing what you taught him and seeing that it worked he has certainty on it and lives better for applying it.

The opposite is what the government are doing, making people uncertain of communicating or travelling, going outside, or even living. It is destructive of production, mental and physical health. The only certainty the medical authorities, government and media are giving many is that you are at grave risk of being killed or maimed by Covid. You will soon learn the statistics do not support this lie. And piling lies on top of lies is what reduces our ability to survive.

According to statistics and validated science (not the "settled science" lies from those who wish to stifle dissent), the medical authorities' and government advice and responses to Covid-19 are grossly disproportionate, logically incorrect and destructive. In fact, 180 degrees wrong!

The Chinese have a saying "Never let the man saying it can't be done interrupt the man doing it." Medical advisers and the government are saying, "Covid can't be cured, you need a vaccine." Let's look at some information from various health professionals who are curing it. Not speculating, theorising, opining or hoping but actually curing it.

Many of these health care practitioners are on the front lines, achieving a 95% or better cure rate of Covid, so they have the runs on the board. Many of the "authorities" whose advice the government are accepting, like Dr Fauci in the US, have not seen a patient in 30 years. If you had Covid, who would you prefer to see? A doctor currently curing patients or an administrator recommending against those cures saying they don't work?

Now, about these doctors. It takes a lot of personal courage to stand against the crowd and speak the truth against the lies of tyrannical authority. These professionals had the courage to look and see what is there rather than be an obedient servant and accepting what they are told to think, despite censure and vilification. They are doing what works. They are getting results. Personally, I think that's worth a listen.

Collected from many people highly qualified in their field, what follows is a broad and deep body of evidence to substantiate your suspicions or gut feeling that there is something wrong. In fact, very seriously wrong. (Unfortunately for many, *fatally* wrong.)

- The Covid infected suffer the same overall mortality rate as the seasonal flu. The over 70s have a higher death rate, under 70s lower.

- From 2003 to 2009 the WHO web site contained the description of a pandemic as: "An influenza pandemic occurs when a new influenza virus appears against which the human population has no immunity, resulting in several simultaneous epidemics worldwide with enormous numbers of deaths and illness." The 'enormous numbers of deaths and illnesses' part of the description was dropped in 2009. How handy for some as it enables a pandemic to be declared without actual evidence of increased deaths.

| Year | World Population | Deaths | Death % |
|------|------------------|------------|---------|
| 2020 | 7,794,798,739 | 59,230,795 | 0.76% |
| 2019 | 7,713,468,100 | 58,394,378 | 0.76% |
| 2018 | 7,631,091,040 | 57,625,149 | 0.76% |
| 2017 | 7,547,858,925 | 56,935,173 | 0.75% |
| 2016 | 7,464,022,049 | 56,331,837 | 0.75% |
| 2015 | 7,379,797,139 | 55,822,989 | 0.76% |

I went on a scavenger hunt, no pandemic.

- Australian statistics reveal a completely different picture to that portrayed by the media:

<https://www.bitchute.com/video/WChWxp2TiVLd/>

So if there was no difference in the overall mortality rate in 2020 compared to prior years, why the vast change in handling Covid compared to the seasonal flu which has an almost identical mortality rate? Good question! The reason was that Neil Ferguson from the same Imperial College involved in the falsified global warming statistics (Climate Gate scandal) had some (we later learned incredibly unreliable) modelling software that predicted 500,000 UK and 2,200,000 US Covid deaths. Neil

The image shows a hand-drawn diagram on lined paper. At the top, there is a mathematical expression $= 4a^2$. Below it, there are several numbered equations:

- a. $14a^4 = 7a^2 = 2a^2$
- b. $24a^5 = 3a^4 = 6a^2$
- c. $25a^8 = 5a^2 = 10a^2$
- d. $42a^7 = 6a^2 = 7a^2$
- e. $84a^9 = 7a^2 = 8a^2$
- f. $56a^6 = 7a^2 = 8a^2$
- g. $16a^{21} = 2a^2 = 4a^2$
- h. $36a^6 = 3a^2 = 12a^2$
- i. $66a^6 = 6a^2 = 6a^2$
- j. $48a^{36} = 6a^2 = 6a^2$

 To the right of these equations, there is a fraction $\frac{a \times a}{a \times a}$. The main text is written in large, bold, red capital letters:

EACH COMORBIDITY (CHRONIC ILLNESS) ADDS AROUND 35% EXTRA RISK FROM COVID. IF YOU DON'T HAVE CHRONIC ILLNESS YOU ARE AT NO MORE RISK THAN THE FLU. DESPITE WHAT THE POLITICIANS SAY. THIS IS SCIENCE AND BASED ON FACT.

 At the bottom of the page, there are more numbered equations:

- 1. $9b + 3b = 12b$
- 2. $-4j + 6j = 2j$
- 3. $3f + 6g + 4h + 5g = 7g + 11g$
- 4. $9b - 3k - 4j + 5k = 5j + 2k$
- 5. $11a \times 9 = 99a$
- 7. $9b^2 v^3 \times 5t^3 v^5 = 45t^3 v^8$
- 8. $100w^4 = 10w^2 = 10w^2$
- 9. $15a^3 z^6 = 6a^2 z^3 = 3a^2 z^3$

has a track record of making these alarmist, wildly inaccurate predictions.

So not only was Ferguson incompetent or malicious but the WHO and various governments were culpable in not checking the accuracy of his previous predictions before buying his alarmist forecasts.

- Dr Peter Dingle has reviewed the literature and worked out that the death rate is the same as the normal flu for nobody who has comorbidities.

Medical Technocrats Get It 100% Wrong

- The idea that the governments are correct, acting in our best health interests and on the best medical advice is debunked by Dr Lee Merritt who gave a brilliant lecture: <https://www.tomgrimshaw.com/tomsblog/?p=33980> She says of Fauci, Brix et al: *"Everything they said was wrong. Now, they were wrong about what they were telling us and they were wrong by errors of omission, not telling us things that we knew to be helpful. And I'm talking about knowing in science for 20 years. So I can give you the benefit of doubt if you're wrong about one or two things, but when you're wrong 100% of the time consistently, that's not by accident. I mean even a blind hog gets to eat corn once in a while."*

The Truth Is Being Suppressed

- Any fact not in accord with the official agenda is ignored by the authorities and blocked by their technology partners under the guise of censoring disinformation. LOCKDOWNS

"Lockdowns were harmful. They were the opposite of what should have been done. We said it from the beginning. And there's a massive price to pay it's not just that they failed to stop the infection. The lockdowns actually killed people, destroyed lives, destroyed families. And, in the schools, our country more than any other country, frankly, was willing to sacrifice its children out of fear. And, that is really one of the historic epic tragedies of what happened during the pandemic management."

CONTACT TRACING

"This was the wrong time and the wrong type of disease to do contact tracing. Early on, the CDC was estimating that probably tenfold a higher number of people were infected than was reported and once you have tens of millions of people with an illness, that's not the time to start contact tracing."

OPENING SCHOOLS

"It is really unconscionable that there are any schools that are not in person. The data was in last spring. It's been validated by studies at Duke University, Brown University, and all over the world. Kids have extremely low risk from covid-19 and there are enormous harms from keeping in-person schools closed. There were hundreds of thousands of child abuse cases not reported because schools are the number one agency where child abuse is noted. There's children's nutritional needs. All of these things are worse for the children of lower income and middle income people."

MASKING IN SCHOOL

"There's no scientific rationale or logic to have children wear mask in schools."

MASKING

"The empirical evidence from looking at places that used mask mandates shows there was no evidence that a mask mandate was effective in stopping cases from spreading. Moreover, there's a large study from Denmark that shows mask did not reduce infections with any statistical significance. This was true for the previous data before the pandemic. For instance, the CDC published a study reviewing data on influenza virus which has a similar size to covid-19. All the data on mask shows that it does not stop the spread of a viral infection. There is no evidence that a mask mandate has worked. In fact, the people in the United States have been wearing mask at a very high frequency for months and the cases exploded."

HERD IMMUNITY

"There was a complete rejection of decades of fundamental knowledge about biology and immunology. We have decades of experience with coronaviruses. Fundamental biology says that if you get an infection from a virus it's highly likely you will have some sort of protection. Data from Singapore showed a robust t-cell response and a cross-protection mechanism. This is first-year medical school stuff yet if you said that you were pilloried. I don't know why decades of information and basic biological phenomena were thrown out and became controversial."

MEDIA COVERAGE

"I would point out that the American media is different from most of the world. There's a study which quantified how much negative media was being produced about the pandemic and in the english-speaking media outside the US, there was about 53% negative press coverage. Inside the US, 90% of the coverage about the pandemic was negative. The media is reckless when they incite fear like that. There's a responsibility of the media that really has been abandoned."

SOCIAL MEDIA

"In the townsquare of today, it wasn't just attack mode, it was also overt censorship. I had my own YouTube interviews about schools opening pulled down. Various tweets were censored. I think many of us have had that happen. This is very harmful. The power of media to just overtly control what is even said. When you extend that to the rebukes of speaking against the narratives, we interfere with the process to achieve the truths that we need to seek and this is a huge problem."

Masks Do Not Prevent Transmission Of Viruses & Are Harmful

- Not one article published before March 2020 supports the efficacy of masks. 40 debunk it: <https://www.tomgrimshaw.com/tombsblog/?p=31801>
- The top authority on mask efficacy is a senior industrial hygienist. <https://truth11.com/2021/02/21/kristen-meghan-reveals-the-big-mask-lie-mike-adams/> They know masks cannot prevent viral infection.
- As well, masks cause lung problems and deaths. 11 dangerous pathogens found on kids' masks: <https://www.tomgrimshaw.com/tombsblog/?p=33660>

Lockdowns Harm More Than They Help

- Quarantine is restricting the movement of sick people. Tyranny is restricting the movement of healthy people. When the number of people committing suicide directly attributable to lockdowns greatly exceeds the lives saved, one could be forgiven for coming to the conclusion that lockdowns are tyranny. One pastor had 7 people he knew personally commit suicide when Covid deaths in the whole of Australia for 2021 was less than that. <https://www.youtu.be/e3QeSYWh3M4> More here: <https://www.2gb.com/economics-professor-pushes-back-against-lockdowns/>

The PCR Test Was Not Created To & Cannot Determine Infection

- The Entire Basis For The Lockdowns Is A Lie! Kary Mullis, inventor of the PCR test, said "...these PCR tests cannot detect free infectious viruses at all." That's why a paw paw and goat can test positive.
- The Azores Regional Health Authority quarantined 4 German tourists because one tested positive for Covid. The tourists took the Portuguese government to court claiming the test was unable to tell if they had Covid or not. The tourists won their case on the evidence presented. <https://www.rt.com/op-ed/507937-covid-pcr-test-fail/>
- 21 July 2021 the CDC withdrew emergency use authorisation for the PCR test for detecting Covid as it cannot distinguish between Covid and the normal flu. <https://www.fda.gov/media/134922/download> It was designed to test a cold! Page 40 para 2: "Since no quantified virus isolates of the 2019-nCoV were available for CDC use at the time the test was developed and this study conducted, assays designed for detection of the 2019-nCoV RNA were tested with characterized stocks of in vitro transcribed full length RNA (N gene; GenBank accession: MN908947.2)" MN908947.2 is a cold.
- According to a recorded phone conversation I heard, the lab doing the PCR tests for the NSW Health Dept can't distinguish the Delta variant.

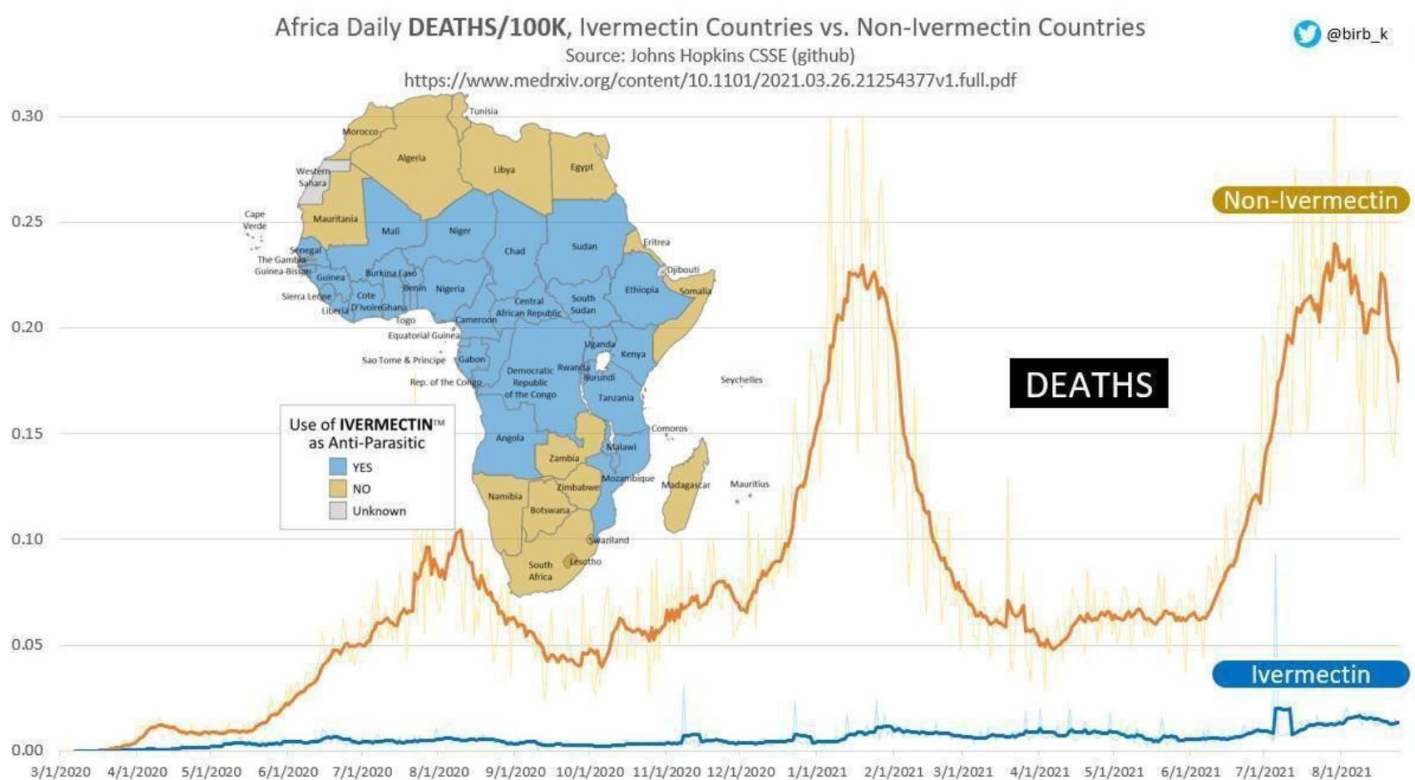

Question: If the PCR test cannot distinguish between Covid and the flu or detect the Delta variant, from where do the government get the numbers they quote? If your answer was "Out of thin air?" I cannot argue with you!

No Cure Available

- Several cures (Ivermectin, Hydroxychloroquine etc.) exist for Covid that were and are being actively suppressed so as to increase the level of perceived necessity for what has been fraudulently promoted as a vaccine. <https://www.biospectrumasia.com/news/91/16457/australian-develops-effective-triple-therapy-to-treat-covid-19.html>

- This graphic is pretty self-explanatory. Ivermectin seems to work!

Vaccines in General

- Vaccines have been proven in a UK court of law to not be required for good health: <https://www.tomgrimshaw.com/tombsblog/?p=24878>
- In fact they may increase resistance to the target pathogen but generally weaken the immune system <https://www.tomgrimshaw.com/tombsblog/?p=22555> and <https://www.tomgrimshaw.com/tombsblog/?p=5454>, lower overall health <https://journals.sagepub.com/doi/10.1177/2050312120925344> and contribute to autoimmune diseases <https://www.chelseagreen.com/product/vaccines-autoimmunity-and-the-assault-on-childhood/>
- Dr Thomas in Oregon had the vaccination status of his patients classified so he was able to get an external audit of the health of his patients revealing up to 30 times more chronic illness in the vaccinated group. As soon as this analysis was published, his license was cancelled by the state: www.ncbi.nlm.nih.gov/pmc/articles/PMC7268563/

The Experimental Covid Shot Specifically

- This shot is an experimental gene therapy. The reason it has never before been used is that prior versions of it have never made it past previous clinical trials. In those trials, while it had short term benefits, it later had the effect of ramping up the immune system such that subsequent infections harmed or killed most animal subjects. A condition known variously as pathogenic priming or ADE (Antibody Dependent Enhancement). <https://www.tomgrimshaw.com/tombsblog/?p=33166>
- According to the manufacturer's data the shot does not prevent infection, does not prevent transmission, does not lessen the symptoms of the infection and can shed spike proteins infecting others. The CDC state "Genetic analysis of the outbreak showed that people who were vaccinated were transmitting the virus to other vaccinated people." <https://context-cdn.washingtonpost.com/notes/prod/default/documents/8a726408-07bd-46bd-a945-3af0ae2f3c37/note/57c98604-3b54-44f0-8b44-b148d8f75165.#page=1>

- Dr Robert Malone invented the mRNA technology, which has been used to create the Pfizer and Moderna Covid vaccines. He has been speaking about the dangers of the Covid shot, such as the damages the Coronavirus spike protein causes in the body. In this interview with Del Bigtree, Dr. Robert Malone calls for a stop of Covid vaccines, the Covid vaccine can cause enhanced immune response, which creates a worse reaction when exposed to the natural coronavirus. He says that it can create autoimmunities in the body. He also said that the spike protein is the most dangerous part of the virus (which is in the Covid vaccine) is similar to spike proteins in our bodies, and can open up (not just pass through) the blood brain barrier. This has very dangerous implications for the human body, and why there have been so many adverse reactions to the Covid vaccine. - Dr Jane Ruby reported that the August 6 VAERS report (at the 16 minute mark on) <https://www.redvoicemedia.com/2021/08/leaked-moderna-numbers-warning-issued-to-kids-dr-dave-clements-live/> details 2,600,000 adverse events from the Covid Jab and 13,000 deaths and 16,000 permanent

disabilities. When combined, the US and European figures are 5,416,000 serious injuries and 34,000 deaths world wide (not included the CDC covered up 45,000). A leaked Moderna document reveals the adverse events were fraudulently reported as 110,000 when the correct figure is 300,000.

- Data from the Australian drug regulatory agency, TGA, reveals on an annual basis, the CV-19 shots have caused a 2800% increase in deaths compared to all other shots combined over the last 50 years of vaccines.

Government Response To Covid Is Part Of The Greatest Scam Ever

- Mandated vaccines, lockdowns, masks, vaccine passports are all medical preventatives or treatments that contravene the spirit if not the letter of every human rights agreement Australia inherited with our legal framework (Magna Carta, the Bill of Rights, our Australian Constitution), medical tradition (the Hippocratic oath enjoins the practitioner to do no harm) or has signed (the Nuremberg Code asserts that informed consent and voluntary participation is a requirement of participating in a medical experiment, which the Covid shot is, the Universal Agreement on Medical Bioethics and Human Rights and the Universal Declaration of Human Rights). Every set of ethical principles reinforces the right of individuals to determine their own medical choices. The proposed discriminatory vaccine passports would be a further violation of these rights.

- The CDC knew in October 2020 that the new Covid shots would cause 110 diseases yet did not put a black box label on it till May this year:

The Source Of The Insanity – The Who, The Why and the How

Well there you have it. EVERY SINGLE POINT of the official story turns out to be wrong. Not just off by a little. Wrong by 180 degrees. Absolutely and incontrovertibly, provable-in-a-court-of-law level wrong. **But why?**

Some time ago I heard the saying, "Never assign to malice that which can be adequately explained by ignorance." When dealing with people known to be mostly good that is a valid way to not lump everyone in the "They're out to get me!" basket that traps some people.

But when a person or organisation is consistently and seriously wrong it is time to start looking very closely at them and their actions. **When they are 100% wrong, it's not by accident.** It's time to investigate with vigour! So it is with the government.

Franklin D. Roosevelt famously said, "In politics, nothing happens by accident. If it happens, you can bet it was planned that way."

Some of the titbits I have learned over the last 18 months:

- What we are experiencing is no happenstance, no accidental confluence of random factors. It has been carefully planned for years.

If you've a mind to learn more on this, read the head of the IMF, Klaus Schwab's book 'Covid and the Great Reset'. "This book, by the founder of the World Economic Forum (the institution that partnered with the WHO to declare a pandemic of international concern in March, and is behind the call to impose lockdowns on the majority of the world's population) states openly that the virus itself is of little concern, and that lockdown measures will continue indefinitely to push through automation and digital technologies that benefit corporations at the expense of the poor and the third world." <https://www.tomgrimshaw.com/tombsblog/?p=29286>

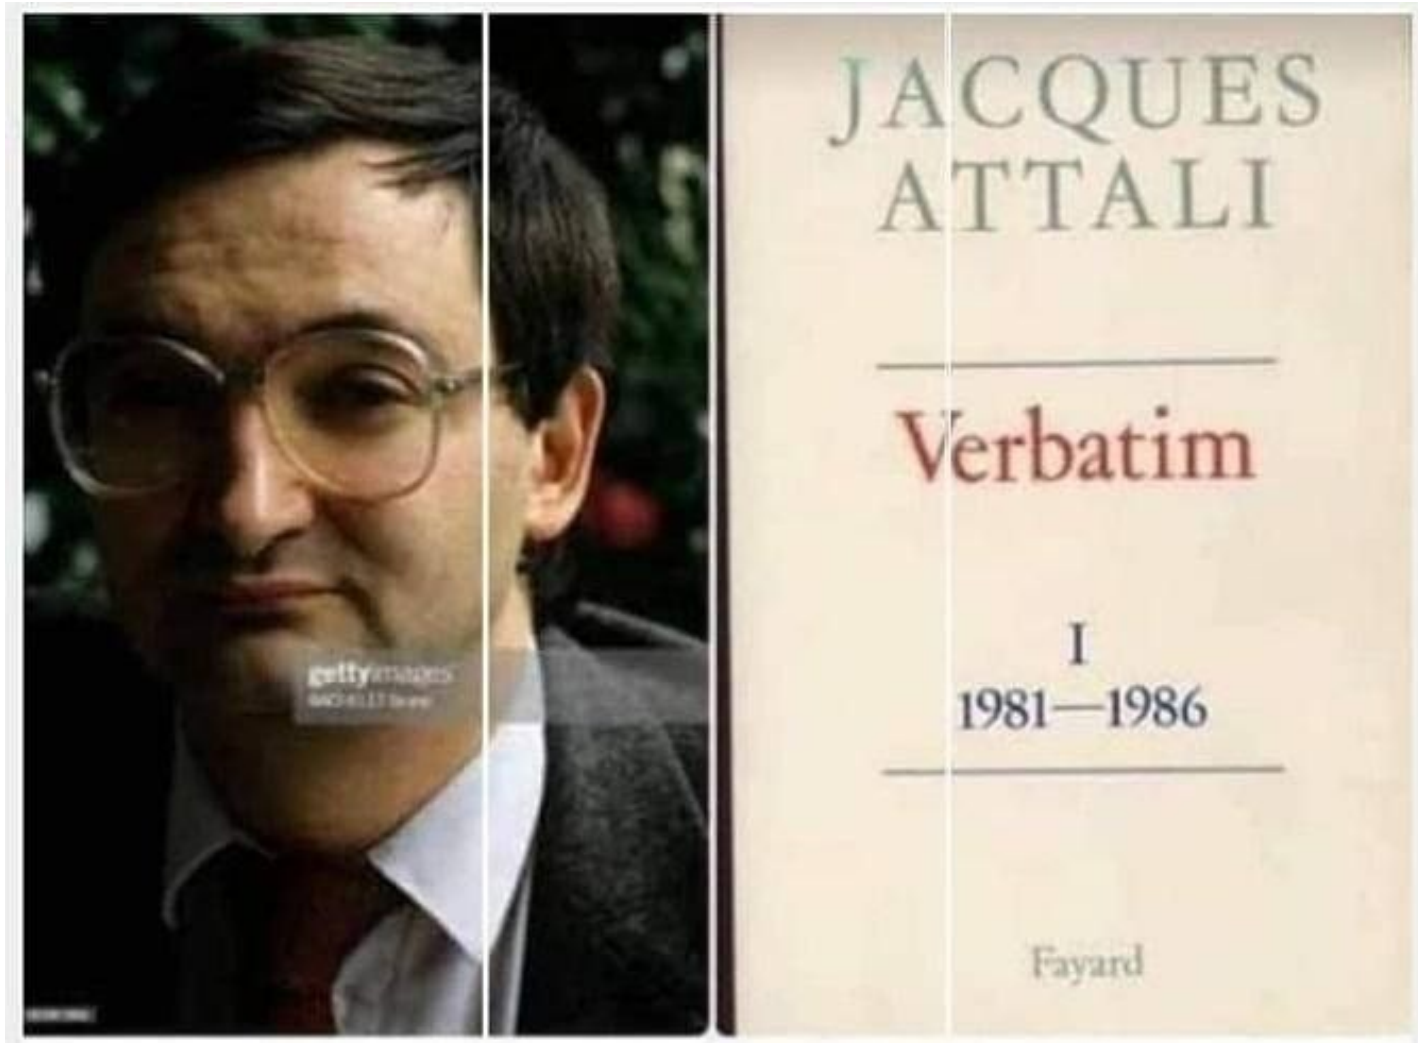

- By now you be thinking it incredible that this agenda should be implemented so broadly across nations who find it so difficult to agree on so many things. There are many ways "cooperation" can be co-opted. One way is to invite the governments to a conference and get them to agree on how to respond to an alleged crises. Event 201 Pandemic Exercise was such a conference held in October 2019.

<https://www.armstrongeconomics.com/international-news/disease/a-fictional-exercise-to-control-pandemic-oct-18-2019-that-is-destroying-the-world-economy/> The cosponsors were listed as the WHO, the Bill and Melinda Gates Foundation and the John Hopkins University although none of them contributed a penny. Who footed the bill? Facebook! <https://subsplash.com/churchofgladtidings/lb/mi/+kn37nbr>

- Another way is monetary inducement. Easy when you have control of the planetary purse strings. A specific example reported in the Covid context was of Belarus President Aleksandr Lukashenko who said the IMF and World Bank demanded lockdowns, curfews and quarantine as conditions for a loan ten times higher. <https://www.tomgrimshaw.com/tombsblog/?p=28676>

- A propaganda expert says Covid is a global propaganda operation: <https://rumble.com/vkppo0-covid-is-a-global-propaganda-operation.html>

solution. The selection of idiots will therefore be done by itself: they will go to the slaughterhouse alone."

- 10 days before President Trump's inauguration, Fauci forecast the Trump administration would face a "surprise outbreak". How did he know? Perhaps because he had been funding the "gain of function" research at Wuhan since it was banned in the US! To the tune of 1.2 billion dollars. <https://subsplash.com/churchofgladtidings/lb/mi/+kn37nbr>

- Pfizer's Confidential Government Contract Reveals Jaw-Dropping Terms Ehdan Biber, an information-security expert, discovered a Pfizer confidential government contract on an Albanian website that is so heavily biased that it literally converts governments into agents of Pfizer. Biber wrote that Ivermectin, an anti-parasite medicine that has been used successfully in several countries against Covid, was suppressed because the Pfizer contract requires that, even if a drug is found to treat Covid-19 effectively, the contract to continue buying products from Pfizer cannot be voided. The contract requires governments to commit to paying for the products even if they are not shipped on time, and no products may be returned. Governments must acknowledge that the effectiveness and potential adverse effects and injuries are unknown. The contract is written to supersede any local law of the state. It stipulates that the "Purchaser (meaning the government) hereby agrees to indemnify, DEFEND AND HOLD HARMLESS Pfizer, BioNTech (and) their Affiliates...from and against any and all suits, claims, actions, demands, losses, damages, liabilities,

settlements, penalties, fines, costs and expenses...' The contract says that there is no limit to the immunity from prosecution bestowed upon Pfizer even if the company commits fraud. Finally, if the purchasing government fails to enforce these defences on behalf of Pfizer, a court in New York has the authority and capacity to take the physical assets of that country and transfer them to Pfizer. One of the most stunning clauses stipulates: "If there are any laws or regulations in your country under which Pfizer could be prosecuted, you agree to CHANGE THE LAW OR REGULATION to close that off." <https://needtoknow.news/2021/08/pfizers-confidential-contract-reveals-the-companys-jaw-dropping-terms>

- Heads of state who refuse to vaccinate their people are dying or being assassinated. 6 months ago the President of Tanzania watched TV when the Prime Minister of Austria tested a can of Coca Cola for Covid during a live press conference, and the test was positive. Curious, Magufuli sent the lab a sample of a goat, quail and mango, and got back three positive results. He immediately declared Covid a hoax, and refused to entertain the notions of masks, lockdowns, or vaccines. Tanzania was doing amazingly well as a result, with zero problems, and this was absolutely destroying the narrative. Coincidentally, he died. Got a lot of respect for this man, he tried to protect his people to best of his ability. RIP sir!

- A great interview with Prof Dolores Cahill by Catherine Austin Fitts, two very intelligent, very well informed, very well credentialed and very courageous women! It takes a lot of confront to face as much evil as they expose in this video. It is the central piece of the jigsaw puzzle that makes all the other insanities logical. If you want to cut to "the chase scene" go to the 50 minute mark. *"They're planning on significant population reduction to balance the books."*

- And if you think by you or all of us following the government's illogical and unscientific mandates that will get us back to the more tolerable pre-Covid level of societal insanity, here, from the horse's mouths, is the planned truth from two of the criminally insane architects of this madness:

Summary

So there you have it. Not all the data I have let alone the whole truth, which will probably never be known, but this is certainly a lot closer the truth than the 100% lie that is the official narrative. And definitely enough to understand the motive, the opportunity, and the means.

What we do individually and collectively after gaining certainty on this data will determine the future of this civilisation. Whether we descend into the dark age of yet another police state/slave society or retain and improve our freedom.

I sincerely hope you take bold and decisive action on your new found certainty. Kept to ourselves this knowledge changes nothing. Shared and acted on, it has power to reverse the downward spiral the planners of it envisage for us. From Catherine Austin Fitts, *"One of the great breakthroughs will come when enough of the general population will realise that the leadership is not in alignment with their best interests."*

So the more people who know the data in this article, the closer we are to a breakthrough. Let's get distributing!

Action Plan

Step 0 Improve your diet and lifestyle to improve your general health and immune system. A notable quote: *"During the 10 years that I have been connected with sanitarium work, my workers and myself, in giving the various forms of manipulative treatment, have handled intimately thousands of cases of infectious and contagious diseases, and I do not remember a single instance where any of us was in the least affected by such contact. Ordinary cleanliness, good vitality, clean blood and tissues, the organs of elimination in good, active condition and, last but not least, a positive, fearless attitude of mind will practically establish natural immunity to the inroads and ravages of bacteria and disease taints. If infection takes place, the organism reacts to it though inflammatory processes, and by means of those endeavors to overcome and eliminate microorganisms and poisons from the system."*
Henry Lindlahr, *Nature cure: The unity of Acute Disease* 1922

Step 1 If you do not already have a certainty for yourself that this plandemic is a scam from start to finish, reread the above, re-listen to the referenced experts or do your own data collection until you have that as an incontrovertible, unshakeable and unassailable certainty.

Step 2 Decide that the destructive government mandates advised by the medical mafia must stop and that you will do something within your power to bring that about, despite rejection you will receive from those who are still under the spell of the fear hypnosis or who profit from the scam.

Step 3 Forward this PDF or the link to it to those on your communication lines, your family, your friends and associates. If you do not think that advisable, pick something in it that you feel comfortable forwarding, clip it out and forward that. Only a large scale agreement to restore and maintain our freedoms will preserve them and prevent a police state.

Step 4 If you are a member of the public, let your local member of parliament and state and federal Senators know where you stand, brief or send them this data. If you are a member of parliament, start asking questions in question time, vote against lockdowns, mandatory vaccines and passports. If you are a member of the police or armed forces, show your seniors this data and discuss this with them to formulate your plans. "I was just following orders" did not cut it at Nuremberg. Your personal integrity is more important than your immediate life.

Step 5 Look for and find like minded people/groups and support them.

Step 6 Support local small businesses, hard hit by lockdowns.

Step 7 If you have a mind to be more active in your address to this assault on our freedoms and health, please keep it peaceful. Bear in mind Mahatma Gandhi's example of non-violent non-cooperation. After all, he freed India from the greatest colonial power in the world at that time. Take every opportunity to politely, peacefully and non-violently let those making or enforcing these destructive measures know that you have the real science, not the paid for pseudo-science, and that you do not agree. After all, many of them can think and probably have the same questions as you and I! Your polite exposure of the lies helps them too!

My very sincere thanks to the many medical professionals and scientists who have broken ranks to counter the 'official narrative' and bring us the truth in a sincere attempt to help save lives. Likewise the genuine representatives of the people in parliament standing up for our rights.

Yours sincerely in an attempt to save as many lives as possible,

Tom Grimshaw
